

S-Line System

For both single-stage and multi-stage

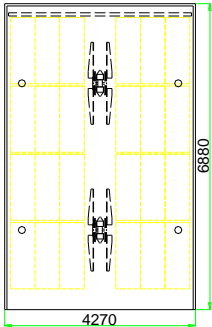

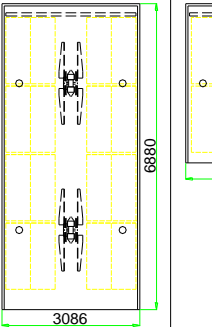

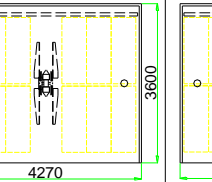

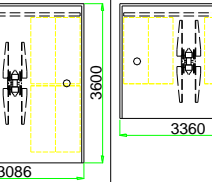

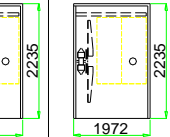

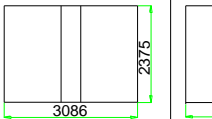

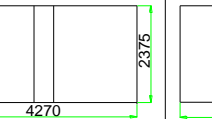

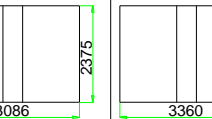

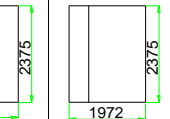

These incubators are designed for single-stage, but also work as multi-stage. Single-stage Incubator is usually used in a way of all in all out. All the eggs are loaded into the setter at one time, and transferred to the hatcher at one time. The advantages of this machine include: easier for cleaning and better sanitation, and also to control the environment according to the different requirements of eggs when they develop in different days.

Models & Specifications

	Setters					Hatcher	
	DF1152	DF768	DF576	DF384	DF192	DC192	DC96
Capacity							
Chicken Eggs/150 egg tray	115200	76800	57600	38400	19200	19200	9600

Heating	Electric heating system						
Cooling	Water cooling system						
Humidity	Nozzle Sprayer				Disc		
Electricity	380V/50Hz,3 phase (other electricity also available)						
CO2	Option						

Dimensions of different models:

	DF1152	DF768	DF576	DF384	DF192/DC192	DC96
Top View Dimension						
Front View						

DC II Touch Control System

Touch control, large LCD display
Friendly interface, powerful function
Pt-100 temperature sensor
PID control, to ensure stable incubation temperature.

CO2 Control

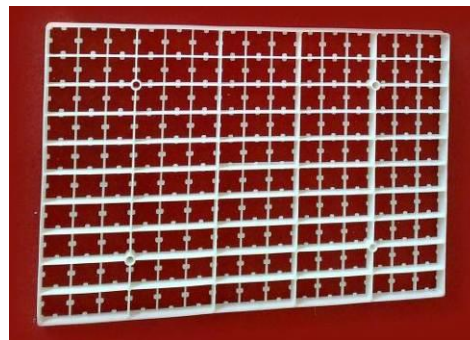

CO2 control function optional,
Damper controlled by CO2 not temperature under this function.

Cabinet and wall panels

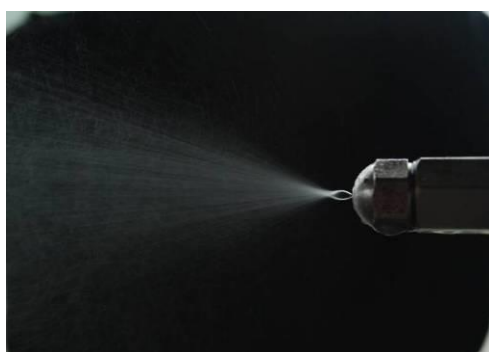

High density BLUE foam insulation
High grade of FRP skin for wall board panels

Egg tray

Each egg tray to contain 150 chicken eggs
Other egg trays available for different eggs
Egg trays made of high quality PE

Humidity Control

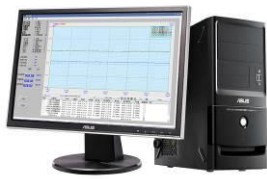

Humidity controlled by atomizing nozzles
Nozzles made in U.S.A.

Hatching basket

Made of high quality PE

Other hatchery equipment

PC Monitoring System

Egg Transfer Machine

Water Chiller for water cooling system

Central Alarm System

Plastic Chick Boxes

Egg Room Air Conditioner

Spareparts Package

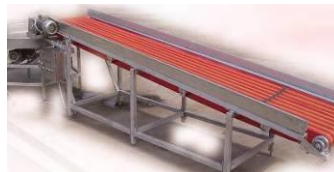

High Pressure Cleaner (combined washer)

Hatchery Humidifier

Egg Turning System for Eggs in Storage

Day Old Chicks Conveyer

Automatic Vaccine sprayer

Vacuum Egg Lifter (Egg-Trans)

Chick Counter

Candling Table

Electric Beak Trimmer

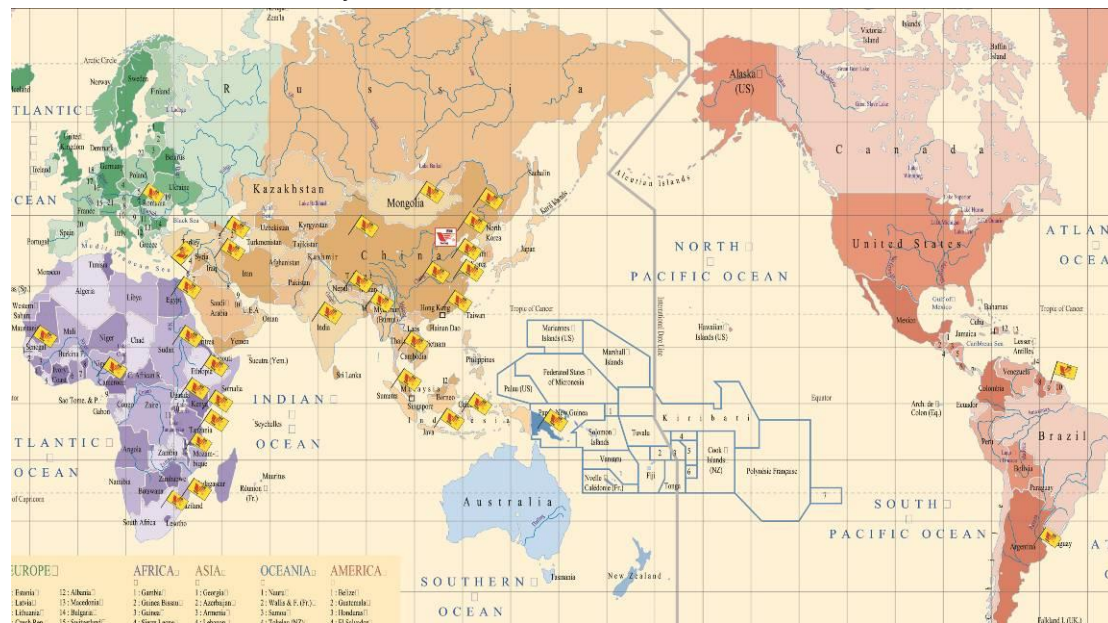

Fumigation Equipment (Ultrasonic)
